CITY OF INVER GROVE HEIGHTS
INVER GROVE HEIGHTS, MINNESOTA

FOR THE YEAR ENDED
DECEMBER 31, 2015

THIS PAGE IS LEFT BLANK
INTENTIONALLY

May 14, 2016

To the City Council and Citizens of the City of Inver Grove Heights:

Minnesota statutes require all cities to issue an annual report on its financial position and activity prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), and audited in accordance with audit standards generally accepted in the United States of America by a firm of licensed certified public accountants or the Office of the State Auditor. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the City of Inver Grove Heights for the fiscal year ended December 31, 2015.

This report consists of management's representations concerning the finances of the City of Inver Grove Heights. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City of Inver Grove Heights has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Inver Grove Heights' financial statements in conformity with GAAP. Because the costs of internal controls should not outweigh their benefits, the City of Inver Grove Heights' internal controls have been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City of Inver Grove Heights' financial statements have been audited by Abdo, Eick & Meyers, LLP a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the City of Inver Grove Heights for the fiscal year ended December 31, 2015, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Inver Grove Heights' financial statements for the fiscal year ended December 31, 2015, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City of Inver Grove Heights' MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The City of Inver Grove Heights, incorporated in 1965, is a suburban community located about 12 miles south of the City of St. Paul, Minnesota in the eastern part of the state. This area is considered to be a major population and economic growth area in the state, and among one of the highly ranked economic growth areas in the country. The City of Inver Grove Heights currently occupies a land area of approximately 30 square miles and serves a population of 34,831. The City of Inver Grove Heights is empowered to levy a property tax on both real and personal properties located within its boundaries. While it is empowered by state statute to extend its corporate limits by annexation, Inver Grove Heights is still developing within its corporate limits and is bordered on all sides by other incorporated communities.

The City of Inver Grove Heights became a statutory city in 1974. The City operates under a statutory form of government consisting of a four-member city council and the mayor who is a voting member. Council members serve four-year staggered terms, with two council members elected every four years and the Mayor serves a two year term. Among its primary duties, the city council makes laws, sets policies, adopts budgets and oversees a wide ranging agenda for the community. The city administrator is appointed by the city council. The city administrator heads the administrative branch of city government and directs all city operations, projects and programs.

The City of Inver Grove Heights provides a full range of services, including police and fire protection, the construction and maintenance of highways, streets and other infrastructure; water and sewer services and recreational activities and cultural events.

The annual budget serves as a foundation for the City of Inver Grove Heights' financial planning and control. All departments of the City of Inver Grove Heights submit requests for appropriation for the following year to the city administrator, who uses this information to develop a proposed budget. This is presented to the city council for their review. The city council is required to adopt a proposed budget and tax levy by September 30. The council is required to hold public hearings on the proposed budget and to adopt a final budget by no later than December 28.

Factors Affecting Financial Condition

The information in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City of Inver Grove Heights operates.

Local Economy. The City of Inver Grove Heights has experienced growth in population and development. State Highway 52, which traverses north and south through the City, has had a major impact on development within the City. The freeway allows City residents and businesses a rapid and direct access directly north into downtown St. Paul and to Interstate Highway 94 which connects St. Paul with Minneapolis. This roadway has enhanced transportation throughout the metropolitan area for City residents and increased opportunity for further industrial, commercial and residential development. Interstate Highway 494 traverses east and west through the City and connects with Interstate Highway 694 to form a freeway loop around the entire Twin Cities Metropolitan area.

Inver Grove Heights has several large industries which account for a significant portion of the City's commercial tax capacity. Some of the industries are highly automated and consequently are major taxpayers but not major employers.

Relevant Financial Policies. In 2015 the City implemented GASB #68 *Accounting and Financial Reporting for Pensions-an Amendment of GASB Statement No. 27* and GASB #71 *Pension Transition for Contributions Made Subsequent to the Measurement Date-an amendment of GASB Statement No. 68*. Implementation decreased beginning unrestricted net position by \$8,491,712.

The primary financial goal of the City's investment policy is to ensure the safety of principal invested by the City. Cash temporarily idle during the year is invested in instruments authorized under *Minnesota Statute No. 118A*. Instruments authorized include certificates of deposit, commercial paper, and obligations of U.S. Treasury and government agencies. In order to achieve diversification the policy provides that, with the exception of U.S. Treasury securities, no more than 50% of the City's total investment portfolio will be invested with a single institution or in a single security type. A report summarizing investment activity and demonstrating compliance with this policy is prepared on a quarterly basis for City Council review. Cash balances from all City funds are pooled into an investment fund and investment income is distributed on a pro-rata basis at the end of each quarter.

Capital financing for major municipal improvements is provided through improvement bonds, general obligation bonds, tax increment bonds, or revenue bonds. Depending upon the project, special assessments may be levied upon properties to share in the cost of the improvement project. The special assessments are collected over a period of time and are used to help satisfy the improvement bond debt. Internal financing of improvement projects is usually minimal and only for short periods of time.

The City has adopted a comprehensive set of internal control procedures. The City's accounting system was developed and is continually evaluated to assure the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable but not absolute assurance in the areas of: safeguarding assets against loss from unauthorized use or disposition, reliability of financial records, and convenience of access for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the evaluation of cost and benefits requires estimates and judgments by management, and the cost of a control should not exceed the benefits likely to be derived. All internal controls are evaluated against the above criteria. It is our belief that the City's internal accounting controls adequately safeguard the City's assets and also provide reasonable assurance of properly recording financial transactions.

Major Initiatives.

Community Development

Inver Grove Heights had \$45.3M of new construction in 2015, compared to \$81.8 million in 2014, and \$55.5 million in 2013. Total residential construction was 32 dwelling units, including 28 single-family homes. In comparison, 52 single-family homes were built in 2014 and 89 in 2013. Residential additions and remodeling improved as homeowners reinvested in their homes. The City issued almost 800 building permits for residential additions and remodeling with a valuation of \$10.0 million. Inver Grove Heights had \$5.8 million of commercial and industrial construction in 2015, compared to \$29.0 million in 2014 and \$5.6 million in 2013. Institutional construction was high, generating \$17.7 million of construction compared to \$5.2 million in 2014 and \$3.0 million in 2013.

New commercial construction projects included Ideal Credit Union and two office warehouse buildings. Commercial additions included Power Dynamics, Inver Grove Ford, AMC Theatre, and IGH Distribution Center. Restaurant activity consisted of the new El Azteca Mexican Restaurant, the expansion and reopening of A & W Root Beer, and an addition to the Mississippi Pub. Simley High School Performing Arts Center and the interior remodeling of the Inver Hills Community College Activities Building were the major institutional construction projects.

The City processed 47 planning applications in 2015, about the same number as in 2014. Most significantly, final approvals were granted to 116 single-family lots in Blackstone Vista and Blackstone Ponds. Preliminary approval was given to Hannah Meadows with 46 single-family lots, 36 townhomes, and a future apartment building. These plats are expected to substantially increase residential construction in 2016. To serve this development, the City continued major extensions of sanitary sewer and municipal water trunk utilities and, working with Dakota County, approved the future realignment of Argenta Trail. Planning staff also worked on zoning ordinances pertaining to accessory dwelling units, supervised student housing, tobacco licensing, and solar and wind power generation.

In economic development activities, the Inver Grove Heights Economic Development Authority (EDA) had a busy year. The 'Open to Business' program, which provides technical and financial assistance to small businesses, was approved for a third year. In the Concord Neighborhood, the EDA acquired a residential property, continued negotiations for four additional properties, heard a presentation regarding an industrial market assessment, and received a Dakota County Community Development Agency Redevelopment Grant. In the Arbor Pointe Neighborhood, the EDA addressed City sign regulations, state highway informational signs, access, a potential roundabout, and past EDA activities. The EDA also conducted conversations with retail strip owners throughout the City, discussed commercial development and the City's role with such development, and initiated a discussion of commercial property maintenance regulations.

Police Department

The Police Department continues to deploy a community based policing philosophy striving for greater community involvement in all areas of public safety. We have continued to reach out to our community to improve communications with citizens, neighborhoods, and businesses. Officers participate in child safety fairs, children's safety camps, youth police academy, Town Hall meetings, Crime Free Multi-Housing, Neighborhood Watch Groups and many other events culminating in Minnesota Night to Unite in August, Inver Grove Heights Days in September, and a nine-week Citizen's Academy that starts in late September with the graduation in early November.

Programs that we continue to offer include Alcohol Compliance Checks, Domestic Abuse Response Team (DART), Business Check Program, Bicycle Patrol, Intensive Supervision Program (ISP), Critical Incident Stress Management (CISM) team, check diversion program and driving diversion program. We also continue to receive hundreds of volunteer hours each year from our Police Reserves, Police Chaplains and Explorer programs.

The Police Department is also involved in many partnership initiatives within Dakota County. Some of these initiatives are Domestic Preparedness including the Special Operations Team (SOT), Incident Management Team (IMT), Drug Task Force, MAAG (SWAT), as well as Traffic Safety Group projects. Another partnership the police department is involved in is the School Resource Officer (SRO) position with Independent School District No. 199 that will continue through the 2016-2018 school years.

Fire Department

The number of emergency calls stayed about the same in 2015 at 1,193. Of those total calls, 46% were for Emergency Medical Services (EMS). The rest involved a combination of many other classifications such as: fires, vehicle crashes, alarms (fire/carbon monoxide), etc. Inver Grove Heights Firefighters continued to step up to the higher number of calls. Recruitment and retention issues have not yet hit Inver Grove Heights as hard as it has some of our neighboring communities. One neighboring department continued to see losses in its department above 20% in 2015, and hired fewer back than they lost. In comparison, Inver Grove Heights only lost 7% and was able to fill back in with the same number that was lost. The number of applicants in 2015 was back up to over 45. Of those 45, twenty were interviewed and nine were added to a hiring list. Five of those nine were hired, with three of the five already coming in with a significant amount of training. However, the number of good applicants or the number of those coming in with training can vary significantly from year to year. Because of the many variables in number and type of applicants, along with the increasing time commitment required of being a paid-on-call firefighter, plans were developed throughout 2015 to move to a different response model, called a duty crew. All plans for the switch to duty crew were completed for a start date of January 4, 2016.

The Fire Department continues on its quest to build a new fire station. The station location study was completed showing a need for a third fire station to cover the south, a space needs analysis and preliminary design were also completed. Potential sites are being evaluated. Although a third fire station in the city has been discussed for more than a decade, there has been little formal action until now. The new station, if approved to move forward, will help reduce response times to the southern part of the city. By reducing response times to that area, the Fire Department will be able to improve its quality of care and safety and could also provide a benefit for both residences and businesses by helping them achieve significant reductions in insurance rates.

The Fire Explorer program for youth between the ages of 14 and 20 continues to be successful with an annual roster of 15-20 members. This program also serves as an excellent feeder program for the Fire Department, providing one of five recruits in each of the past four years. Advisors for the program include previous Explorers and active Firefighters who have children in the program.

Two new Engines were ordered and one of those engines, known as a Fast Attack Truck, was received in 2015. The other larger engine is scheduled for a March 2016 delivery. The Fire Department hired a full-time Operations Supervisor in September. This position took over the duties of several paid-on-call positions and was also assigned to supervise the new duty crew program in 2016. The Company Fire Inspection Program, which started at the end of 2012 for multi-family housing facilities, completed another year. Two firefighter company inspectors participated.

The Fire Department continues to be very involved in community activities and public education. Inver Grove Heights Beyond the Yellow Ribbon Program, state-wide Veteran's Day celebration, various career fairs, Fire Prevention Week Open House, teaching at safety camps, staffing Inver Grove Heights Days displays and presentations, and attending Night to Unite and safety fairs are some of the bigger events.

Public Works

Public Works continues to oversee the street reconstruction program, a street mill and overlay program and a street crack seal and seal coating program. These programs will ensure a well-maintained roadway infrastructure. The 2015 urban street reconstruction project rebuilt 1.13 miles of street and completed a mill and overlay on 0.12 mile of street. The crack seal and seal coat projects covered 8.77 and 6.90 miles of street, respectively.

In 2015, three trunk utility extension projects were completed; one of which was in cooperation with a developer. The projects included trunk water main trunk sanitary sewer and a sanitary sewer lift station. A small water main and sanitary sewer improvement and rehabilitation project was completed in conjunction with the street reconstruction project. The street reconstruction project also included a number of storm water quality improvement features.

Parks & Recreation

The City of Inver Grove Heights and Dakota County have been cooperatively working with developers in the Northwest Area to secure land to construct portions of the Mendota Lebanon Regional Greenway that when completed will be a public trail linking Mendota Heights to Lebanon Hills Regional Park in Eagan. The greenway is a part of the County's Greenway Master Plan and is owned and operated by Dakota County.

Utilizing \$700,000 from a \$2,000,000 appropriation from the 2014 State Bonding Bill the City and County are cooperatively working on construction of the Pine Bends Bluff Trailhead that will serve the Mississippi River Regional Trail, historic interpretation improvements at Swing Bridge Park, and a trail segment that will connect Swing Bridge Park to Heritage Village Park.

The City has worked with GreenCity GIS to inventory and track all of the amenities in the Park System. The technology will be made available to the public so they can become more aware of all of the facilities available for their recreation and leisure pursuits. The Park and Recreation Department has also upgraded our operations software to MaxGalaxy, a cloud based product that manages our reservations, registration, POS, and membership management of the VMCC/Grove. Finally, the City has begun the implementation of CarteGraph OMS to help us manage our assets, work flow, and work order processes. It is expected to take a few years to realize the potential the software will provide to managers, directors, and the Council.

The City is investing in projects that reduce our dependence on energy at both the VMCC/Grove and Municipal Campus. Solar panels will be installed on the roofs of both buildings and when operational will provide approximately 20% of the electricity needs for the two buildings. In addition investments in a state of the art building management system (BMS) at the VMCC/Grove will help staff manage the HVAC and refrigeration systems more effectively.

The City's popular Rich Valley Park is receiving some much needed attention as a new potable water well is being installed to serve the clean drinking water needs of the thousands of visitors that visit the park each year. Additionally, the Rich Valley Maintenance Building was updated with restrooms, a small office area, and eye wash station making the facility safer and more efficient for our staff.

Administration

2015 saw continued change in the Administration Department. The former Deputy City Clerk position was upgraded to City Clerk and a new person hired in that position. In addition, the former Human Resources Technician position was changed to Administrative Services Coordinator and a new person hired for that position.

New election equipment was purchased from Dakota County and the City was able to see it demonstrated during the District 199 School Board election process earlier in the year. Staff is working with Dakota County elections to familiarize themselves with it as well as the whole process for the Primary and General elections.

For the Future. The City's Comprehensive Plan sets forth goals, policies, and plans for the City's future growth and development over the next 20 years. The City will undertake an update of the Comprehensive Plan, last adopted in 2008, starting later this year. The comprehensive plan update will address land use, transportation, utilities, parks, housing and environmental issues.

A major focus of the Comprehensive Plan is the continued expansion of infrastructure and subsequent development in the northwest part of the City, an area of approximately five square miles. Construction of the first segment of sanitary sewer and municipal water occurred in 2009 with a second major extension now occurring in 2016 and 2017. The City also decided on an alignment of Argenta Trail, a future regional arterial roadway which will extend between two future interchanges at Interstate 494 and State Highway 55. These public improvements will serve the six residential developments that the City approved in the last two years, as well as future residential, commercial and office development.

The City is also concentrating on redevelopment in the Concord Boulevard Neighborhood, an area adjacent to the Mississippi River. The City's goals are to improve the existing residential neighborhood, strengthen and increase commercial activities, increase property values, and provide additional employment opportunities. In the last few years, the City updated its Concord Boulevard Neighborhood Plan and has been acquiring properties and undertaking environmental investigations and remediation. The City has also successfully obtained State and County grants to financially support these redevelopment efforts. In addition to the Concord Neighborhood, the City continues to work on the acquisition and environmental investigation of a property, currently owned by the Minnesota Department of Transportation, for future office development.

The Inver Grove Heights Economic Development Authority continues to work with Progress Plus, a public-private non-profit foundation, and the Metropolitan Consortium of Community Developers, a regional economic development organization to undertake various economic development activities. This work includes marketing, business retention, business recruitment, and technical and financial assistance to small businesses.

The Fire Department continues to move forward with the planning stage for a third fire station. Once a site is agreed upon and purchased, the next phase will be to hire an architect for final design as well as a construction manager.

In 2016, it is anticipated that three trunk utility projects will start construction in the Northwest Area. The proposed Pavement Management Program will involve work on 16.50 miles of streets. The program will include reconstruction, crack seal and seal coat projects. There will be a small water and sewer improvement and rehabilitation project that will be completed in conjunction with the street reconstruction project.

The City has applied for a \$20,000 grant with Blue Cross Blue Shield with the hopes of engaging the community in a Master Planning process for North and South Valley Park(s). The City has also applied for a \$20,000 grant with Dakota County to develop a plan for the installation of a public trail along County Road 73 that would close one of the gaps found in our 2011 Trail Gap Study.

The Park Commission plans to research and develop alternative funding sources for the park system. Potential ideas include the implementation of a Utility Round Up program and the creation of a 501(c) (3) non-profit that would be designed to support the capital needs of the park and recreation system.

The VMCC will be getting a new roof this spring and the Grove will see new splash pool equipment in the fall. The VMCC/Grove continues to be a valuable asset in the community and one that continues to see increases in its utilization. With the lease of the VMCC expired and the Grove lease coming towards its end, the City and ISD 199 are working on the development of a new lease that will provide both the City and District with continued access to the facility along with improved financial support. The City and District will also be talking about how best to provide programs and social opportunities for the Senior Citizens of the community, a growing segment of our overall population.

Inver Wood Golf Course is going to see \$2,287,700 worth of investments to replace the aging irrigation system, attention to the 66-bunkers, and improvements in the driving range designed to increase revenue potential. In all, the project will be paid back over a 25-year period with increases to the revenue per round of \$0.70 annually. The improvements should help stabilize the golf course for the next 40 years.

The Department will also be looking to improve our customer service and efficiency during the 2017 budget process. With the loss of five full-time positions at the VMCC/Grove and increased use of the facility, rehiring a Guest Service Operations Supervisor will be necessary to respond to customer service needs. The City will also consider the hiring of a City Facilities Superintendent that can manage and oversee the physical building assets the City owns which has a value of approximately \$55,000,000.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Inver Grove Heights for its comprehensive annual financial report (CAFR) for the fiscal year ended December 31, 2014. This was the twenty-eighth consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, the government has published an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the dedicated services of the Finance Department staff. We would like to express our appreciation to all members of the department who assisted and contributed to the preparation of this report. Credit must also be given to the Mayor and City Council for their unfailing support for maintaining the highest standards of professionalism in the management of the City of Inver Grove Heights' finances.

Respectfully submitted,

Kristi Smith
Finance Director

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and City Council
City of Inver Grove Heights, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Inver Grove Heights, Minnesota (the City), as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of December 31, 2015, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General fund and Community Center special revenue fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Change in Accounting Standards

As described in Note 10 to the financial statements, the City adopted the provisions of Governmental Accounting Standard Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions - an Amendment of GASB Statement No. 27* and Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date - an Amendment of GASB Statement No. 68*, for the year ended December 31, 2015. Adoption of the provisions of these statements results in significant change to the classifications of the components of the financial statements.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis Page 23 and the Schedules of Employer's Share of the Net Pension Liability, the Schedules of Employer's Contributions, Schedule of Changes in the Fire Relief Association's Net Pension Liability (Asset) and Related Ratios and the Schedule of Funding Progress for the Other Postemployment Benefit Plan starting on page 96 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, statistical section, and combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Management's Discussion and Analysis

As management of the City of Inver Grove Heights, Minnesota, (the City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2015. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 5-12 of this report.

Financial Highlights

- The beginning unrestricted net position was decreased by \$8,491,712 to recognize the effects of GASB Statement No. 68 implementation.
- The assets and deferred outflows of the City exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$191,409,285 (net position). Of this amount, \$50,623,797 (unrestricted net position) may be used to meet the City's ongoing obligations to citizens and creditors.
- The City's net position for governmental activities increased \$7,547,454 and business-type activities increased \$898,888, resulting in a total increase of \$8,446,342, mainly as a result of total capital grants and contributions of \$5,324,049 as well as \$2,467,346 revenues exceeding expenditures within the Host Community governmental fund.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$33,134,892, an increase of \$8,239,955 in comparison with the prior year.
- At the end of the current fiscal year, unassigned fund balance for the General fund was \$9,922,952, or 50.6 percent of next year's budgeted expenses.
- The City's total debt increased \$7,297,092, (17.8 percent) during the current fiscal year. The increase was due to issuing General Obligation bonds and a Revenue bond in the Improvement Bonds fund and Sewer fund, respectively.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplemental information in addition to the basic financial statements themselves.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of combining and individual fund financial statements and schedules that further explains and supports the information in the financial statements. In addition to these required elements, we have included a section with combining and individual fund financial statements and schedules that provide details about nonmajor governmental funds, which are added together and presented in single columns in the basic financial statements.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City's assets, deferred outflows, liabilities, and deferred inflows, with the difference between them reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenue (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, public safety, public works, culture and recreation, community development, and interest on long-term debt. The business-type activities of the City include water and sewer utilities and the golf course.

The government-wide financial statements start on page 35 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact by the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains 25 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General fund, Improvement Bonds, Closed Bond, Local Improvement Construction, Pavement Management and the Host Community, which are all considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements or schedules* elsewhere in this report.

The City adopts an annual appropriated budget for its General fund. A budgetary comparison statement has been provided for this fund to demonstrate compliance with its budget.

The basic governmental fund financial statements start on page 40 of this report.

Proprietary funds. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for all the water, sewer, and golf course funds, which are considered to be major funds of the City. Conversely, all internal service funds are combined into a single aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

The City maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its water, sanitary sewer and golf operations. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for compensated absences, risk management, central equipment maintenance, office supplies and equipment, city facilities, and technology. Because these services predominantly benefit governmental rather than business-type activities, they have been included within governmental activities in the government-wide financial statements.

The basic proprietary fund financial statements start on page 50 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the City. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on page 56 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements start on page 57 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's progress in funding its obligation to provide pensions and other postemployment benefits to its employees.

Required supplementary information can be found on page 96 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds and internal service funds are presented following the required supplementary information.

Combining and individual fund statements and schedules start on page 102 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets and deferred outflows exceeded liabilities and deferred inflows by \$191,409,285 at the close of the most recent fiscal year.

By far, the largest portion of the City's net position (69.5 percent) reflects its investment in capital assets (e.g., land, buildings, machinery and equipment) less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

City of Inver Grove Heights' Summary of Net Position

	Governmental Activities			Business-type Activities		
	2015	2014	Increase (Decrease)	2015	2014	Increase (Decrease)
Assets						
Current and other assets	\$ 59,467,826	\$ 49,845,032	\$ 9,622,794	\$ 22,798,836	\$ 21,686,347	\$ 1,112,489

Total assets	173,056,169	159,333,666	13,722,503	81,535,034	77,003,952	4,531,082
Deferred outflows						
Deferred charge on refunding	81,157	101,033	(19,876)	250,903	270,080	(19,177)
Deferred pension resources	1,786,382	-	1,786,382	101,481	-	101,481
Total deferred outflows	1,867,539	101,033	1,766,506	352,384	270,080	82,304
Liabilities						
Noncurrent liabilities outstanding	38,024,413	25,261,655	12,762,758	21,533,854	17,503,314	4,030,540
Other liabilities	2,136,512	1,842,951	293,561	1,082,792	646,156	436,636
Total liabilities	40,160,925	27,104,606	13,056,319	22,616,646	18,149,470	4,467,176
Deferred inflows						
Deferred pension resources	2,413,808	-	2,413,808	210,462	-	210,462
Net position						
Net investment in capital assets	92,587,696	88,745,756	3,841,940	40,500,700	38,248,637	2,252,063
Restricted	7,697,092	6,560,238	1,136,854	-	-	-
Unrestricted	32,064,187	37,024,099	(4,959,912)	18,559,610	20,875,925	(2,316,315)
Total net position	\$ 132,348,975	\$ 132,330,093	\$ 18,882	\$ 59,060,310	\$ 59,124,562	\$ (64,252)

An additional portion of the City's net position (4.0 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net position* (\$50,623,797) may be used to meet the City's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net position, both for the City as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

Significant changes from the prior year are noted below:

City of Inver Grove Heights' Changes in Net Position

	Governmental Activities			Business-type Activities		
	2015	2014	Increase (Decrease)	2015	2014	Increase (Decrease)
Revenues						
Program revenues						
Charges for services	\$ 8,081,101	\$ 8,007,248	\$ 73,853	\$ 7,622,667	\$ 7,285,643	\$ 337,024

Change in net position	7,547,454	7,981,950	(434,496)	898,888	(46,474)	945,362
Net position, January 1 as restated*	124,801,521	124,348,143	453,378	58,161,422	59,171,036	(1,009,614)
Net position, December 31	<u>\$ 132,348,975</u>	<u>\$ 132,330,093</u>	<u>\$ 18,882</u>	<u>\$ 59,060,310</u>	<u>\$ 59,124,562</u>	<u>\$ (64,252)</u>

* GASB Statement No. 68 was implemented for the year ended December 31, 2015 and required a \$8,491,712 restatement of beginning net position. Prior year amounts were not restated causing a variance in ending net position at December 31, 2014 and beginning net position on January 1, 2015. See financial statement Note 10, starting on page 92.

Governmental activities. Governmental activities increased the City’s net position by \$7,547,454. The following graph depicts various governmental activities and shows the revenues and expenses directly related to those activities.

Expenses and Program Revenues - Governmental Activities

Revenues by Source - Governmental Activities

Business-type activities. The net position of business-type activities increased by \$898,888. This increase was primarily the result of capital grants and contributions of \$1,463,961 offset with net transfers from internal activities to governmental activities of \$855,802.

Below are graphs showing the business-type activities revenue and expense comparisons.

Expenses and Program Revenues - Business-type Activities

Revenues by Source - Business-type Activities

Financial Analysis of the City's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds had combined ending fund balances of \$33,134,892, an increase of \$8,239,955 in comparison with the prior year. Approximately 24.1 percent of this total amount, \$7,973,478, constitutes *unassigned fund balance*, which is available for spending at the City's discretion. The remainder of fund balance is not available for new spending because it is either 1) nonspendable \$10,870, 2) restricted \$10,128,899, 3) committed \$955,348, or 4) assigned \$14,066,297. For further classification refer to Note 3E starting on page 77 of this report.

Activity in the City's major funds is discussed below:

Major Fund	Fund Balances		Increase (Decrease)
	2015	December 31, 2014	
General	\$ 9,926,619	\$ 9,191,116	\$ 735,503
The General fund is the chief operating fund of the City. As a measure of the General fund's liquidity, it may be useful to compare total fund balance to the following year's budget. The fund balance is 50.6 percent of next year's budgeted expenses. The General fund continues to receive an annual transfer from the Host Community fund, which is the main reason for the increase in fund balance.			
Improvement Bonds	\$ 2,792,355	\$ 3,312,408	\$ (520,053)
The Improvement Bonds fund has a total fund balance of \$2,792,357, all of which is restricted for the payment of debt service. The net decrease in fund balance was the result of scheduled debt service payments.			
Closed Bond	\$ 2,322,687	\$ 2,548,905	\$ (226,218)
The Closed Bond fund has a total fund balance of \$2,322,687, of which all is assigned for capital improvements. The net decrease in fund balance of \$226,218 was due to an anticipated transfer out to spend down available reserves.			
Local Improvement Construction	\$ 2,486,282	\$ (2,058,299)	\$ 4,544,581
The Local Improvement Construction fund was established to account for the governmental portion of improvement projects. The increase was primarily the result of transfers in and bond proceeds. Currently \$4,297,324 of the 2015A bonds issued are unspent, which is currently restricted for capital improvements.			
Pavement Management	\$ 2,599,272	\$ 1,523,454	\$ 1,075,818
The Pavement Management fund was established to account for the governmental portion of capital projects. \$2,411,098 of the ending fund balance is assigned for capital improvements. The increase was primarily the result of transfers in.			
Host Community	\$ 4,536,162	\$ 3,717,746	\$ 818,416
Charges for services for 2015 totaled \$2,595,616. These were offset with transfers out of \$1,648,930 to other funds for various needs of the funds including operations and capital projects. The balance of \$4,535,162 is assigned for capital improvements while \$1,000 is nonspendable.			
Community Center	\$ 149,247	\$ 149,247	\$ -
Charges for services for 2015 totaled \$2,237,734. The fund also received transfers in of \$774,389 to assist with operating and capital costs. The entire ending fund balance is reported as committed.			

Proprietary funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. At the end of the year, unrestricted net position of the enterprise funds amounted to \$18,559,610. Other factors concerning the finances of these funds have already been addressed in the discussion of the City's business-type activities.

General Fund Budgetary Highlights

The City's General fund budget was amended during the year. The original budget called for no change in fund balance and the final budget anticipated use of \$128,800 of fund balance due to carryover requests from the 2014 budget. Revenues were more than budget by \$338,207, primarily due to the receipt of \$229,000 and \$96,141 in unbudgeted tax and intergovernmental receipts, respectively. Expenditures were \$535,845 less than budgeted amounts, primarily due to expenditures for public safety and public works coming in under budget by \$371,531 and \$76,608, respectively.

Capital Asset and Debt Administration

Capital assets. The City's investment in capital assets for its governmental and business-type activities as of December 31, 2015, amounts to \$172,324,541 (net of accumulated depreciation). This investment in capital assets includes land (tangible and intangible), buildings, improvements, machinery and equipment, park facilities, roads and bridges, and other infrastructure.

Major capital asset events during the current fiscal year included the following:

- Purchases of \$1,988,578 were made to acquire machinery and equipment. This includes \$354,974 for Parks Department acquisition of a service body for Ford F350, a utility tractor, a Ford F250 Plow, a Mack Truck, three mowers, a brush chipper, and a floor scrubber for the Community Center. Equipment totaling \$978,372 was purchased on behalf of the City's Public Safety Department, which includes \$822,442 for two fire engines, \$155,929 for three police squads, an unmarked vehicle, and set-up of a four additional squads. The Street Department purchased \$412,987 in five vehicles (plows, tree chipper and utility vehicle), a trailer, programmable highway message board, and an asphalt roller. Purchases in the amount of \$47,509 for a pickup truck each for the Engineering and Inspection Departments. The Water Department purchased \$110,254 in Supervisory Control & Data Acquisition (SCADA) hardware and software for their treatment plant. The Technology Department acquired \$84,484 in network storage equipment.
- Buildings and systems totaling \$19,562,801 were capitalized during the year. Included was \$15,700,645 for the completed City Hall upgrade and Police Department addition as well as \$421,228 in further purchases which include \$261,892 Community Center improvements (office remodel, sound system upgrade, new signage, a drainage project behind the Community Center, and a backup pool heat exchanger), new shingles for Golf Maintenance Building (\$20,800), an upgrade to the Rich Valley maintenance building (\$42,234), and dugout covers for Rich Valley (\$96,300).
- Donated infrastructure and systems included \$3,752,100 for Blackstone Vista and Blackstone Pond of streets, sidewalks, right of ways, permanent easements, storm sewer, sanitary sewer and water main. Projects included \$2,473,681 for the Asher Water Storage Tower, \$438,031 for the Blaine Avenue retaining wall replacement, \$148,885 for Robert Trail roundabout storm water facility, \$68,631 for a SP 27 storm water facility, and \$45,877 for a water pressure valve station at Blackstone Vista.
- The City has construction commitments relating to Street, Water, and Storm Water construction projects. The remaining commitment at year-end for these projects total \$111,463. In addition, constructions in progress at year-end for both governmental and business-type activities total \$11,394,364.

City of Inver Grove Heights' Capital Assets (net of depreciation)

Additional information on the City's capital assets can be found in Note 3B starting on page 70 of this report.

	Governmental Activities			Business-type Activities		
	2015	2014	Increase (Decrease)	2015	2014	Increase (Decrease)

Total	\$ 113,588,343	\$ 109,488,634	\$ 4,099,709	\$ 58,736,198	\$ 55,317,605	\$ 3,418,593

Long-term debt. At the end of the current fiscal year, the City had total bonded debt outstanding of \$47,411,870. All of the City's bonds are backed by the full faith and credit of the City. During the year, the City issued \$7,745,000 in G.O. Bonds, Series 2015A and \$4,185,000 in G.O. Sewer Revenue Bonds, Series 2015A.

The City maintains an "AA" rating from Standard and Poor's for general obligation debt.

State statutes limit the amount of G.O. debt a Minnesota city may issue to 3 percent of total estimated market value. The current debt limitation for the City is \$90,165,490. Only the \$17,171,870 in G.O. bonds is counted within the statutory limitation. The other debt of the City is either wholly or partially financed by revenues other than a general tax levy.

City of Inver Grove Heights' Outstanding Debt

Additional information on the City's long-term debt can be found in Note 3D starting on page 72 of this report.

Economic Factors and Next Year's Budgets and Rates

- The City's net tax capacity increased by 6.40 percent for taxes payable 2016 which was the same increase for taxes payable 2015. Residential property increased 7.10 percent, commercial property remained stable, and industrial property increased 24.20 percent. Without new construction the increase in tax capacity would have been 4.64 percent. The City's net levy increased \$1,641,184 for taxes payable 2016; however, due to the increase in tax capacity, the tax capacity rate increased 1.86 percent.
- \$500,000 of funding for the Pavement Management Program was reinstated in the 2015 budget after having been removed from the 2014 and 2013 budgets and an additional \$200,000 of funding was reinstated in the 2016 budget after having been removed from the 2015, 2014 and 2013 budgets.
- Water and sewer fees were increased 2.0 percent and 3.5 percent respectively for 2016, based on our long-range financial plan. A \$2.00 per 1,000 gallon sewer surcharge rate was also implemented for properties within the Northwest Area.
- Storm water utility fees were implemented on July 1, 2012 and have not been increased since implementation.

Requests for Information

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional information should be directed to the Finance Director, 8150 Barbara Avenue, Inver Grove Heights, MN 55077-3412.

CITY OF INVER GROVE HEIGHTS, MINNESOTA
RECONCILIATION OF THE BALANCE SHEET
TO THE STATEMENT OF NET POSITION
GOVERNMENTAL FUNDS
DECEMBER 31, 2015

Amounts reported for the governmental activities in the statement of net position are different because

Total fund balances - governmental funds	\$ 33,134,892
Long-term assets from pensions reported in governmental activities are not financial resources and therefore are not reported as assets in the funds.	1,991,426
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds.	
Cost of capital assets	162,527,051
Less: accumulated depreciation	(69,041,204)
Internal service funds are used by the City to charge the cost of compensated absences, liability, property, and workers compensation insurance, vehicles and equipment, centralized purchase of consumable office supplies, maintaining facilities, and maintenance of computer systems. These balances are reported with governmental activities on the statement of net position.	34,363,151
Noncurrent liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds. Noncurrent liabilities at year-end consist of	
Bonds payable	(27,461,870)
Plus premium on bonds issued	(305,432)
Deferred charge on refunding	81,157
Other postemployment benefits payable	(142,608)
Pension liability	(8,057,723)
Some receivables are not available soon enough to pay for the current period's expenditures, and therefore are unavailable in the funds.	
Delinquent taxes	236,679
Special assessments	5,888,449
Governmental funds do not report long-term amounts related to pensions.	
Deferred outflows of pension resources	1,735,629
Deferred inflows of pension resources	(2,308,549)
Governmental funds do not report a liability for accrued interest until due and payable.	(292,073)
Total net position - governmental activities	\$ 132,348,975

The notes to the financial statements are an integral part of this statement.

CITY OF INVER GROVE HEIGHTS, MINNESOTA
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND
CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES
GOVERNMENTAL FUNDS
FOR THE YEAR ENDED DECEMBER 31, 2015

Amounts reported for governmental activities in the statement of activities are different because

Total net change in fund balances - governmental funds	\$ 8,239,955
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over the estimated useful lives as depreciation expense.	
Capital outlays	4,252,871
Depreciation expense	(3,626,010)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds.	
Capital assets transferred to enterprise funds	(14,518)
Capital assets transferred to internal service funds	(15,700,645)
Capital assets contributed from developers	2,691,318
Governmental funds report a gain (loss) on sale of capital assets to the extent of cash exchanged, whereas the disposition of the assets book value is included in the total gain (loss) in the statement of activities.	
Disposals	(14,375)
Depreciation on disposal of capital assets	9,804
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are amortized in the statement of activities.	
Principal repayments	3,688,280
Bonds issued	(7,745,000)
Current year amortization of deferred charges	(19,876)
Premium on bonds issued	(188,546)
Current year amortization of bond premium	46,875
Interest on long-term debt in the statement of activities differs from the amount reported in the governmental fund because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.	
	8,430
Internal service funds are used by the City to charge the cost of compensated absences, liability, property, and workers compensation insurance, vehicles and equipment, centralized purchase of consumable office supplies, maintaining facilities, and maintenance of computer systems. These balances are reported with governmental activities in the statement of activities.	
	16,541,827
Certain revenues are recognized as soon as it is earned. Under the modified accrual basis of accounting, certain revenues cannot be recognized until they are available to liquidate liabilities of the current period.	
Special assessments	(888,682)
Property taxes	(69,262)
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	
Other postemployment benefits	(51,663)
Long-term pension activity is not reported in governmental funds.	
Pension expense	356,881
Pension revenue from State contributions	29,790
Change in net position - governmental activities	<u><u>\$ 7,547,454</u></u>

The notes to the financial statements are an integral part of this statement.

CITY OF INVER GROVE HEIGHTS, MINNESOTA
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting entity

The City was incorporated in 1965 and operates under the State of Minnesota Statutory Plan A form of government. The governing body consists of a five member City Council elected by voters of the City. The City Council exercises legislative authority and determines all matters of policy. The City Council appoints personnel responsible for the proper administration of all affairs relating to the City.

The City has considered all potential units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the City are such that exclusion would cause the City's financial statements to be misleading or incomplete. The City includes all funds, organizations, institutions, agencies, departments, and offices that are not legally separate from such. Component units are legally separate organizations for which the elected officials of the City are financially accountable and are included within the basic financial statements of the City because of their operational or financial relationships with the City. The Governmental Accounting Standards Board (GASB) has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the primary government to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on the primary government. Included in the City's reporting entity, based upon the application of these criteria, is the following blended component unit.

Blended component unit

The Inver Grove Heights Economic Development Authority (EDA) is a legal entity separate from the City. Although legally separate, the EDA is reported as if it were part of the primary government because the Board of Commissioners is made up of the Mayor and the four City Council members and the City has operational responsibility over the EDA. It is this criterion that results in the EDA being reported as a blended component unit and reported as a special revenue fund. Separate financial statements are not prepared for the EDA.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Amounts reported as *program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and the fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

CITY OF INVER GROVE HEIGHTS, MINNESOTA
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

C. Measurement focus, basis of accounting and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using *the current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, pensions, and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available.

Non-exchange transactions, in which the City receives value without directly giving equal value in return, include property taxes, grants, entitlement and donations. On an accrual basis, revenue from property taxes is recognized in the year for which the tax is levied. Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before eligibility requirements are met are also recorded as unearned revenue.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

CITY OF INVER GROVE HEIGHTS, MINNESOTA
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

The City reports the following major governmental funds:

The *General fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Improvement Bonds fund* is a debt service fund that accounts for resources accumulated and payments for principal and interest on long term general obligation special assessment debt.

The *Closed Bond, Local Improvement Construction, Pavement Management, and Host Community funds* are capital project funds that account for improvement revenues and expenditures from replacement funds set aside for capital improvements.

The *Community Center fund* accounts for the activities at the Veterans Memorial and the Grove Community Center. Charges for services within the fund are committed to Community Center activity.

The City reports the following major proprietary funds:

The *Water fund* and the *Sewer fund* account for activities related to the operation of a water distribution system and a sanitary sewer distribution system, respectively.

The *Golf Course fund* accounts for resources and payments related to the operation and maintenance of a municipal golf course.

Additionally, the City reports the following fund types:

Internal service funds account for compensated absences, risk management, central equipment, central stores, city facilities and technology services provided to other departments or agencies of the City. Internal service funds operate in a manner similar to enterprise funds; however, they provide services primarily to other departments within the City.

Fiduciary funds account for assets held by the government in a trustee capacity or as an agent on behalf of others.

The *agency fund* is custodial in nature and does not present results of operations or have a measurement focus. Agency funds are accounted for using the modified accrual basis of accounting. Since, by definition, these assets are being held for the benefit of a third party (other local governments, private parties, etc.) and cannot be used to address activities or obligations of the City, this fund is not incorporated into the government-wide statements. The City accounts for the following agency activities: escrow activity and grant pass through activity. The escrow agency fund accounts for various deposits, collections and remittances of expenses on behalf of developers and homeowners. The grant pass through agency fund accounts for transportation safety grant collections and remittances.

As a general rule the effect of interfund activity has been eliminated from government-wide financial statements. Exceptions to this general rule are payments in-lieu of taxes or other charges between the City's water and sewer function and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds and of the City's internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

CITY OF INVER GROVE HEIGHTS, MINNESOTA
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

D. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position/fund balance

Deposits and investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments. The proprietary funds' portion in the government-wide cash and temporary investments pool is considered to be cash and cash equivalents for purposes of the Statement of Cash Flows.

Cash balances from all funds are pooled and invested, to the extent available, in certificates of deposit and other authorized investments. Earnings from such investments are allocated on the basis of applicable participation by each of the funds.

The City may also invest idle funds as authorized by Minnesota statutes, as follows:

1. Direct obligations or obligations guaranteed by the United States or its agencies.
2. Shares of investment companies registered under the Federal Investment Company Act of 1940 and received the highest credit rating, rated in one of the two highest rating categories by a statistical rating agency, and have a final maturity of thirteen months or less.
3. General obligations of a state or local government with taxing powers rated "A" or better; revenue obligations rated "AA" or better.
4. General obligations of the Minnesota Housing Finance Agency rated "A" or better.
5. Obligation of a school district with an original maturity not exceeding 13 months and (i) rated in the highest category by a national bond rating service or (ii) enrolled in the credit enhancement program pursuant to statute section 126C.55.
6. Bankers' acceptances of United States banks eligible for purchase by the Federal Reserve System.
7. Commercial paper issued by United States banks corporations or their Canadian subsidiaries, of highest quality category by at least two nationally recognized rating agencies, and maturing in 270 days or less.
8. Repurchase or reverse repurchase agreements and securities lending agreements with financial institutions qualified as a "depository" by the government entity, with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000, a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York, or certain Minnesota securities broker-dealers.
9. Guaranteed Investment Contracts (GIC's) issued or guaranteed by a United States commercial bank, a domestic branch of a foreign bank, a United States insurance company, or its Canadian subsidiary, whose similar debt obligations were rated in one of the top two rating categories by a nationally recognized rating agency.

Investments for the City are reported at fair value and are based on quoted market prices at year-end.

CITY OF INVER GROVE HEIGHTS, MINNESOTA
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Property taxes

Property taxes are submitted to the County Auditor by December 28 of each year, to be levied on January 1 on property values assessed as of the same date. The tax levy notice is mailed in March with the first half payment due on May 15 and the second half payment due on October 15.

Unpaid taxes at December 31 become liens on the respective property and are classified in the fund financial statements as delinquent taxes receivable.

Delinquent taxes receivable include the past six years' uncollected taxes. Delinquent taxes have been offset by a deferred inflow of resources for taxes not received within 60 days after year end in the governmental fund financial statements.

Accounts receivable

Accounts receivable include amounts billed for services, such as water, sewer, storm water and nuisance charges, provided before year end. Unbilled utility enterprise fund receivables are also included for services provided in 2015. The City annually certifies delinquent water, sewer, storm water and nuisance accounts to the County for collection in the following year. Therefore, there has been no allowance for doubtful accounts established.

All trade (utility) and property tax receivables are shown at gross amount, since both taxes and trade (utility) receivables are assessable to the property taxes and are collectible upon the sale of the assessed property.

Special assessments

Special assessments represent the financing for public improvements paid for by benefiting property owners. These assessments are recorded as receivables upon certification to the County. Special assessments are recognized as revenue when they are received in cash or within 60 days after year end. All governmental special assessments receivable are offset by a deferred inflow of resources in the fund financial statements. At December 31, 2015, the total delinquent special assessment receivable balance is \$58,613.

Interfund receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Inventories and prepaid items

All inventories are valued at cost using the first in/first out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. Prepaid items are reported using the consumption method and recorded as expenditures/expenses at the time of consumption.

Land held for resale

Land was acquired by the EDA for subsequent resale for redevelopment purposes. Land held for resale is an asset recorded at the lower of cost or realizable value in the fund that acquired it.

CITY OF INVER GROVE HEIGHTS, MINNESOTA
 NOTES TO THE FINANCIAL STATEMENTS
 DECEMBER 31, 2015

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Capital assets

A capital asset is defined as a financial resource that is tangible or intangible in nature, complete in and of itself, and is not a component of another. Capital assets, which include property, easements, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value on the date of acquisition. Infrastructure assets acquired prior to the fiscal year ended December 31, 1979 are not reported.

Intangible assets prior to 2010 were capitalized and bundled with the infrastructure/land purchases and have been determined to have an indefinite life and therefore have not been broken out from the assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the lives of assets are not capitalized.

Property, plant and equipment of the City is depreciated using the straight line method over the following estimated useful lives:

Assets	Useful Live in Years
Buildings and structures	20 to 50
Equipment and machinery	3 to 20
Distribution and collection systems	50
Streets and infrastructure	25

Deferred outflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has two items that qualify for reporting in this category. One is the deferred charge on refunding reported in the statement of net position of the government-wide and proprietary fund financial statements. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second item, deferred pension resources, is reported only in the statements of net position. This item results from actuarial calculations and current year pension contributions made subsequent to the measurement date.

Compensated absences

It is the City's policy to permit employees to accumulate earned but unused vacation, sick leave and personal leave benefits. There is an estimated liability for unpaid accumulated sick leave that will be taken as severance upon retirement. All vacation and estimated retirement severance are accrued when incurred in government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. For the most part, the General fund is typically used to liquidate governmental compensated absences payable.

CITY OF INVER GROVE HEIGHTS, MINNESOTA
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Other postemployment benefits

Under Minnesota statute 471.61, subdivision 2b, public employers must allow retirees and their dependents to continue coverage indefinitely in an employer-sponsored health care plan, under the following conditions: 1) Retirees must be receiving (or eligible to receive) an annuity from a Minnesota public pension plan, 2) Coverage must continue in a group plan until age 65, and retirees must pay no more than the group premium, and 3) Retirees are able to add dependent coverage during open enrollment period or qualifying life event prior to retirement. All premiums are funded on a pay-as-you-go basis. The liability was determined, in accordance with GASB Statement No. 45, at January 1, 2015. The General fund is typically used to liquidate governmental other postemployment benefits payable.

In 2008, the City implemented the requirement of a new accounting pronouncement, GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions. An actuarial valuation was calculated to determine the City's annual required contribution (ARC) liability. At that time the City deemed the ARC liability to be immaterial; however, based on the 2012 actuarial valuation, liabilities for other postemployment benefits have since been recorded. The liability is typically liquidated through the General fund, Water fund, Sewer fund, and Golf Course fund.

Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. The recognition of bond premiums and discounts are amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as an expense in the period incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA except that PERA's fiscal year end is June 30. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. For the most part, the General fund is typically used to liquidate governmental pension liabilities.

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the defined benefit plan administered by Inver Grove Height's Fire Relief Association and additions to and deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. Investments are reported at fair value.

CITY OF INVER GROVE HEIGHTS, MINNESOTA
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Deferred inflows of resources

In addition to liabilities, the statement of net position and fund financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has two types of items, which arise only under a modified accrual basis of accounting that qualifies as needing to be reported in this category. Accordingly, one of the items, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: property taxes and special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

The City has an additional item which qualifies for reporting in this category. The item, deferred pension resources, is reported only in the statements of net position and results from actuarial calculations.

Net position

Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net position is displayed in three components:

- a. Net investment in capital assets - Consists of capital assets, net of accumulated depreciation reduced by any outstanding debt attributable to acquire capital assets.
- a. Restricted net position - Consists of net position balances restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, laws or regulations of other governments.
- b. Unrestricted net position - All other net position balances that do not meet the definition of “restricted” or “net investment in capital assets”.

When both restricted and unrestricted resources are available for use, it is the City’s policy to use restricted resources first, then unrestricted resources as they are needed.

CITY OF INVER GROVE HEIGHTS, MINNESOTA
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Fund balance

In the fund financial statements, fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of resources reported in the governmental funds. These classifications are defined as follows:

Nonspendable - Amounts that cannot be spent because they are not in spendable form, such as prepaid items.

Restricted - Amounts related to externally imposed constraints established by creditors, grantors or contributors; or constraints imposed by state statutory provisions.

Committed - Amounts constrained for specific purposes that are internally imposed by formal action (resolution) of the City Council, which is the City's highest level of decision-making authority. Committed amounts cannot be used for any other purpose unless the City Council modifies or rescinds the commitment by resolution.

Assigned - These are amounts that are constrained by the City's intent to be used for specific purposes but are neither restricted nor committed. Pursuant to the Fund Balance Policy approved by City Council, the City Administrator has been delegated the authority to assign and remove assignments of fund balance amounts for specific purposes.

Unassigned - These are residual amounts in the General fund not reported in any other classification. The General fund is the only fund that can report a positive unassigned fund balance. Other funds would report a negative unassigned fund balance should the total of nonspendable, restricted and committed fund balances exceed the total net resources of that fund.

The City considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available. Additionally, the City would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

The City has formally adopted a fund balance policy for the General fund. The City will strive to maintain a minimum General fund unassigned fund balance of 40 to 45 percent of next year's budgeted expenditures.

Note 2: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary information

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America (generally accepted accounting principles), as applied to governmental units by the Government Accounting Standards Board (GASB). An annual appropriated budget is adopted for the General fund as well as for the Convention and Visitors Bureau, Recreation, Community Center, and Economic Development Authority special revenue funds.

Budgeted amounts are reported as originally adopted, as well as amended by the City Council. Individual amendments were not material in relation to the original appropriations which were adjusted. Budgeted expenditure appropriations lapse at year-end. Any unencumbered appropriations that need to be carried forward to the next year must be reappropriated by the City Council from the fund balance.

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the General fund. Encumbrances outstanding at year-end expire and outstanding purchase orders are cancelled and not reported in the financial statements.

CITY OF INVER GROVE HEIGHTS, MINNESOTA
 NOTES TO THE FINANCIAL STATEMENTS
 DECEMBER 31, 2015

Note 2: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY - CONTINUED

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

1. The City Administrator submits to the City Council a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public meetings are conducted to obtain taxpayer comments.
3. The General fund budget is legally enacted through passage of a resolution on a departmental basis and can be expended by each department based upon detailed budget estimates for that department. The Convention and Visitors Bureau, Recreation, Community Center and Economic Development Authority special revenue fund budgets are legally enacted through passage of resolutions for each fund as a whole.
4. The City Administrator is authorized to transfer appropriations within a fund's budget. Additional fund appropriations and deletions are or may be authorized by the City Council.
5. Formal budgetary integration is employed as a management control device during the year for the General fund.
6. Legal debt obligation indentures determine the appropriation level and debt service tax levies for the Debt Service funds. Supplementary budgets are adopted for the Proprietary funds to determine and calculate user charges. These debt service and budget amounts represent general obligation bond indenture provisions and net income for operation and capital maintenance and are not reflected in the financial statements.
7. A capital improvement program is reviewed annually by the City Council for the Capital Project funds. However, appropriations for major projects are not adopted until the actual bid award of the improvement. The appropriations are not reflected in the financial statements.
8. Expenditures may not legally exceed budgeted appropriations at the total fund level. Monitoring of budgets is maintained at the expenditure category level (i.e., personnel services; other current; capital outlay) within each activity.
9. The City Council may authorize transfers of budgeted amounts between City funds.

B. Excess of expenditures over appropriations

For the year ended December 31, 2015, expenditures exceeded appropriations in the following special revenue funds:

<u>Fund</u>	<u>Budget</u>	<u>Actual</u>	<u>Excess of Expenditures Over Appropriations</u>
Nonmajor			
Economic Development Authority	\$ 83,900	\$ 376,548	\$ 292,648
Convention and Visitors Bureau	93,500	100,236	6,736

The excess of expenditures over appropriations for these funds were funded by actual transfers in and revenues, which were in excess of budget.

Note 2: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY - CONTINUED

C. Deficit fund equity

The following funds had fund equity deficits at December 31, 2015:

Fund	Amount
Nonmajor governmental	
Permanent Improvement Revolving	\$ 138,432

Capital Projects fund deficits are expected to be eliminated with future fund revenues or transfers from other funds.

Note 3: DETAILED NOTES ON ALL FUNDS

A. Deposits and investments

Deposits

Custodial credit risk for deposits and investments is the risk that in the event of a bank failure, the City's deposits and investments may not be returned or the City will not be able to recover collateral securities in the possession of an outside party. In accordance with Minnesota statutes and as authorized by the City Council, the City maintains deposits at depository banks, all of which are members of the Federal Reserve System.

Minnesota statutes require that all City deposits be protected by insurance, surety bond or collateral. The market value of collateral pledged must equal 110 percent of the deposits not covered by insurance, bonds, or irrevocable standby letters of credit from Federal Home Loan Banks.

Authorized collateral in lieu of a corporate surety bond includes:

- United States government Treasury bills, Treasury notes, Treasury bonds;
- Issues of United States government agencies and instrumentalities as quoted by a recognized industry quotation service available to the government entity;
- General obligation securities of any state or local government with taxing powers which is rated "A" or better by a national bond rating service, or revenue obligation securities of any state or local government with taxing powers which is rated "AA" or better by a national bond rating service;
- General obligation securities of a local government with taxing powers may be pledged as collateral against funds deposited by that same local government entity;
- Irrevocable standby letters of credit issued by Federal Home Loan Banks to a municipality accompanied by written evidence that the bank's public debt is rated "AA" or better by Moody's Investors Service, Inc., or Standard & Poor's Corporation; and
- Time deposits that are fully insured by any federal agency.

Minnesota statutes require that all collateral shall be placed in safekeeping in a restricted account at a Federal Reserve Bank, or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral. The selection should be approved by the government entity.

At year end, the City's carrying amount of deposits was negative \$86,604 and the bank balance was \$315,231. Of the bank balance, \$250,000 was covered by federal depository insurance. The remaining bank balance was covered by collateral held by the City's agent in the City's name.

(2) Interest rate risk is disclosed using the segmented time distribution method.

N/A Indicates not applicable or available.

CITY OF INVER GROVE HEIGHTS, MINNESOTA
 NOTES TO THE FINANCIAL STATEMENTS
 DECEMBER 31, 2015

Note 3: DETAILED NOTES ON ALL FUNDS - CONTINUED

The investments of the City are subject to the following risks:

- *Interest Rate Risk* is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with the City's investment policy, the City will not directly invest more than five percent (5 percent) of the total portfolio in securities maturing more than five (5) years from the date of purchase, unless matched to a specific cash flow. The City was not exposed to interest rate risks due to the fact that their investments are not exposed to highly sensitive changes in interest rates.
- *Credit Risk*. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Ratings are provided by various credit rating agencies and where applicable, indicate associated credit risk. Minnesota statutes and the City's investment policy limit the City's investments to the list on page 60 of the notes to the financial statements. In accordance with its investment policy, the City will minimize credit risk by limiting investments to the safest types of securities, pre-qualifying the financial institutions, broker/dealers, intermediaries, and advisers with which the City will do business, and diversifying the investment portfolio so that the impact of potential losses from any one type of security or from any one individual issuer will be minimized.
- *Concentration of Credit Risk*. Concentration of credit risk is defined as positions of five percent (5 percent) or more in the securities of a single issuer. The City's investment policy does not allow for an investment in any issuer or security type (except U.S. Treasury Bonds) that is in excess of fifty percent (50 percent) of the City's total investments. As of December 31, 2015, the following issuers exceeded 5 percent of the City's total investments: FHLMC (10.29 percent), FNMA (7.18 percent), and FFCB (7.47 percent).
- *Custodial Credit Risk- Deposits*. In the case of deposits, this is the risk that in the event of a bank failure, the City's deposits may not be returned to it. Minnesota statutes and the City's investment policy states that in order to provide a level of security for all funds, the collateralization level will be 110 percent of market value not covered by insurance. As of December 31, 2015, all of the City's bank balance was covered by federal depository insurance or by perfected collateral held by the City's agent in the City's name.
- *Custodial Credit Risk - Investments*. For an investment, this is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. As of December 31, 2015, all securities were held by the City or its agent in the City's name. The City does not have an investment policy for custodial credit risk.

The City's investments held by a broker-dealer were insured by SIPC or other supplemental insurance as of December 31, 2015. However, each investment brokerage firm may have a limit to their supplemental insurance coverage and because of the size of the City's portfolio in relation to the brokerage firm's excess SIPC coverage limits; the portion of the supplemental policy applicable to the City's portfolio is unknown. The City accepts the risk due to the controls in place at the broker-dealer.

A reconciliation of cash and temporary investments as shown on the statement of net position for the City follows:

Carrying amount of deposits	\$ (86,604)
Investments	<u>70,163,000</u>
Total	<u><u>\$ 70,076,396</u></u>
As reported on the financial statements	
Statement of net position	
Cash and temporary investments	\$ 69,300,664

CITY OF INVER GROVE HEIGHTS, MINNESOTA
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015

Note 3: DETAILED NOTES ON ALL FUNDS - CONTINUED

D. Long-term debt

Capital leases

The City is the lessee of golf carts under capital leases expiring in 2016. The assets and liabilities under capital leases are recorded at the lower of the present value of the minimum lease payments or the fair market value of the asset. The assets are depreciated over the lower of their related lease terms or the estimated productive lives. Depreciation of assets under capital leases is included in depreciation expense. The assets acquired through capital leases are as follows:

	Business-type Activities
Asset	
Machinery and equipment	\$ 157,875
Less: Accumulated depreciation	(149,981)
Total	\$ 7,894

The future minimum lease obligation and the net present value of these minimum lease payments are as follows:

<u>Year Ending December 31,</u>	Business-type Activities
2016	\$ 29,583
Total minimum lease payments	29,583
Less: amount representing interest	(463)
Present value of minimum lease payments	\$ 29,120

General obligation (G.O.) bonds

The City issues G.O. and revenue bonds to provide funds for the acquisition and construction of major capital facilities and equipment. Debt service is covered by tax increments, special assessments, property tax levies and revenues. In addition, bonds have been issued to refund G.O., G.O. tax increment, G.O. special assessment, and G.O. revenue bonds.

Description	Authorized and Issued	Interest Rate	Issue Date	Maturity Date	Balance at Year End
G.O. Armory Bonds of 1996	\$ 656,500	6.73 %	03/01/96	12/31/16	\$ 56,870

G.O. improvement (special assessment) bonds

The following bonds were issued to finance various improvements and will be repaid primarily from special assessments levied on the properties benefiting from the improvements. Some issues, however, are partially financed by ad valorem tax levies. All special assessment debt is backed by the full faith and credit of the City. Each year the combined assessment and tax levy equals 105 percent of the amount required for debt service. The excess of 5 percent is to cover any delinquencies in tax or assessment payments.

<u>Description</u>	<u>Authorized and Issued</u>	<u>Interest Rate</u>	<u>Issue Date</u>	<u>Maturity Date</u>	<u>Balance at Year End</u>

CITY OF INVER GROVE HEIGHTS, MINNESOTA
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015

Note 3: DETAILED NOTES ON ALL FUNDS - CONTINUED

The City annually budgets transfers for specific purposes and includes transfers to cover funds annual operations, transfers for debt service payments, transfers made as part of capital improvement plans and other transfers made for various reasons. The City made the following one-time non-budgeted transfers for the year ended December 31, 2015:

- Transfers from the General fund to the Local Improvement Construction fund and nonmajor governmental funds were adopted as part of the General fund by resolution. Transfers are for construction projects.
- Transfers from the Closed Bond fund to the Local Improvement Construction fund and nonmajor governmental funds were adopted by approval of the project budget for construction projects.
- Transfers from the nonmajor Tax Increment Financing fund to nonmajor Tax Increment Financing Bonds fund were created to help support debt service.
- Transfers from the Local Improvement Construction fund to the Pavement Management fund and the nonmajor governmental funds were adopted by approval of the project budget for construction projects.
- Transfers from the Pavement Management fund to the Local Improvement Construction fund and the nonmajor governmental funds were adopted by approval of the project budget for construction projects.
- Transfers from the Host Community fund to the Local Improvement Construction fund, Pavement Management fund and the nonmajor governmental funds were adopted by approval of the project budget for construction projects.
- Transfers from the nonmajor governmental funds to the other nonmajor governmental funds were adopted by approval of the project budget for construction projects.
- Transfers from the Water and Sewer funds to the Local Improvement Construction fund, Pavement Management funds and the nonmajor governmental funds were adopted by resolution for construction projects and the allocation of resources for debt and interfund loan payments.

CITY OF INVER GROVE HEIGHTS, MINNESOTA
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015

Note 4: DEFINED BENEFIT PENSION PLANS - STATEWIDE

A. Plan description

The City participates in the following cost-sharing multiple-employer defined benefit pension plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA's defined benefit pension plans are established and administered in accordance with Minnesota statutes, chapters 353 and 356. PERA's defined benefit pension plans are tax qualified plans under Section 401 (a) of the Internal Revenue Code.

General Employees Retirement Fund (GERF)

All full-time and certain part-time employees of the City are covered by the General Employees Retirement Fund (GERF). GERF members belong to either the Coordinated Plan or the Basic Plan. Coordinated Plan members are covered by Social Security and Basic Plan members are not. The Basic Plan was closed to new members in 1967. All new members must participate in the Coordinated Plan.

Public Employees Police and Fire Fund (PEPFF)

The PEPFF, originally established for police officers and firefighters not covered by a local relief association, now covers all police officers and firefighters hired since 1980. Effective July 1, 1999, the PEPFF also covers police officers and firefighters belonging to a local relief association that elected to merge with and transfer assets and administration to PERA.

B. Benefits provided

PERA provides retirement, disability and death benefits. Benefit provisions are established by Minnesota statute and can only be modified by the state legislature.

Benefit increases are provided to benefit recipients each January. Increases are related to the funding ratio of the plan. Members in plans that are at least 90 percent funded for two consecutive years are given 2.5 percent increases. Members in plans that have not exceeded 90 percent funded, or have fallen below 80 percent, are given 1 percent increases.

The benefit provisions stated in the following paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

GERF benefits

Benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated and Basic Plan members. The retiring member receives the higher of a step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2). Under Method 1, the annuity accrual rate for a Basic Plan member is 2.2 percent of average salary for each of the first ten years of service and 2.7 percent for each remaining year. The annuity accrual rate for a Coordinated Plan member is 1.2 percent of average salary for each of the first ten years and 1.7 percent for each remaining year. Under Method 2, the annuity accrual rate is 2.7 percent of average salary for Basic Plan members and 1.7 percent for Coordinated Plan members for each year of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66.

PEPFF benefits

For PEPFF who were first hired prior to July 1, 1989, a full annuity is available when age plus years of service equal at least 90.

Benefits for the PEPFF members first hired after June 30, 2010, but before July 1, 2014, vest on a prorated basis from 50 percent after five years up to 100 percent after ten years of credited service. Benefits for PEPFF members first hired after June 30, 2014, vest on a prorated basis from 50 percent after ten years up to 100 percent after twenty years of credited service. The annuity accrual rate is 3 percent of average salary for each year of service.

CITY OF INVER GROVE HEIGHTS, MINNESOTA
 NOTES TO THE FINANCIAL STATEMENTS
 DECEMBER 31, 2015

Note 4: DEFINED BENEFIT PENSION PLANS - STATEWIDE - CONTINUED

C. Contributions

Minnesota statutes, chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state legislature.

GERF contributions

Basic Plan members and Coordinated Plan members were required to contribute 9.10 percent and 6.50 percent, respectively, of their annual covered salary in calendar year 2015. The City was required to contribute 11.78 percent of pay for Basic Plan members and 7.50 percent for Coordinated Plan members in calendar year 2015. The City's contributions to the GERF for the years ending December 31, 2015, 2014 and 2013 were \$488,967, \$459,894 and \$455,647, respectively. The City's contributions were equal to the contractually required contributions for each year as set by Minnesota statute.

PEPFF contributions

Plan members were required to contribute 10.8 percent of their annual covered salary in calendar year 2015. The City was required to contribute 16.20 percent of pay for PEPFF members in calendar year 2015. The City's contributions to the PEPFF for the years ending December 31, 2015, 2014 and 2013 were \$499,560, \$456,641 and \$417,235, respectively. The City's contributions were equal to the contractually required contributions for each year as set by Minnesota statute.

D. Pension costs

GERF pension costs

At December 31, 2015, the City reported a liability of \$5,612,669 for its proportionate share of the GERF's net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on the City's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2014 through June 30, 2015 relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2015, the City's proportionate share was 0.1083 percent which was a decrease of 0.0139 percent from its proportion measured as of June 30, 2014.

For the year ended December 31, 2015, the City recognized pension expense of \$415,460 for its proportionate share of GERF's pension expense.

At December 31, 2015, the City reported its proportionate share of GERF's deferred outflows of resources and deferred inflows of resources, and its contributions subsequent to the measurement date, from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 58,731	\$ 282,974
Changes in actuarial assumptions	342,857	
Net difference between projected and actual earnings on plan investments	-	499,632
Changes in proportion	-	564,049
Contributions to GERF subsequent to the measurement date	247,745	-
	<u>247,745</u>	<u>-</u>
Total	<u>\$ 649,333</u>	<u>\$ 1,346,655</u>

CITY OF INVER GROVE HEIGHTS, MINNESOTA
 NOTES TO THE FINANCIAL STATEMENTS
 DECEMBER 31, 2015

Note 4: DEFINED BENEFIT PENSION PLANS - STATEWIDE - CONTINUED

Deferred outflows of resources totaling \$247,745 related to pensions resulting from the City's contributions to GERF subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2016. Other amounts reported as deferred outflows and inflows of resources related to GERF pensions will be recognized in pension expense as follows:

2016	\$ (292,368)
2017	(292,368)
2018	(493,162)
2019	132,831

PEPPF pension costs

At December 31, 2015, the City reported a liability of \$3,760,935 for its proportionate share of the PEPFF's net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on the City's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2014 through June 30, 2015 relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2015, the City's proportionate share was 0.3310 percent which was an increase of 0.0020 percent from its proportion measured as of June 30, 2014.

For the year ended December 31, 2015, the City recognized pension expense of \$391,056 for its proportionate share of PEPFF's pension expense. The City also recognized \$29,790 for the year ended December 31, 2015, as pension expense (and grant revenue) for its proportionate share of the State of Minnesota's on-behalf contributions to the PEPFF. Legislation passed in 2013 required the State of Minnesota to begin contributing \$9 million to the PEPFF each year, starting in fiscal year 2014.

At December 31, 2015, the City reported its proportionate share of PEPFF's deferred outflows of resources and deferred inflows of resources, and its contributions subsequent to the measurement date, from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 3,977	\$ 609,901
Changes in actuarial assumptions	714,862	
Net difference between projected and actual earnings on plan investments	-	667,714
Changes in proportion	22,359	-
Contributions to PEPFF subsequent to the measurement date	252,461	-
	<u>252,461</u>	<u>-</u>
Total	<u>\$ 993,659</u>	<u>\$ 1,277,615</u>

Deferred outflows of resources totaling \$252,461 related to pensions resulting from the City's contributions to PEPFF subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2016. Other amounts reported as deferred outflows and inflows of resources related to PEPFF pensions will be recognized in pension expense as follows:

2016	\$ (214,977)
2017	(214,977)
2018	(214,977)
2019	226,022
2020	(117,508)

CITY OF INVER GROVE HEIGHTS, MINNESOTA
 NOTES TO THE FINANCIAL STATEMENTS
 DECEMBER 31, 2015

Note 4: DEFINED BENEFIT PENSION PLANS - STATEWIDE - CONTINUED

E. Actuarial assumptions

The total pension liability in the June 30, 2015 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.75% per year
Active member payroll growth	3.50% per year
Investment rate of return	7.90%

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors and disabilitants were based on RP-2000 tables for males or females, as appropriate, with slight adjustments. Cost of living benefit increases for retirees are assumed to be: 1 percent effective every January 1st until 2034, then 2.5 percent for GERF and PEPFF.

Actuarial assumptions used in the June 30, 2015 valuation were based on the results of actuarial experience studies. The experience study in the GERF was for the period July 1, 2004 through June 30, 2008, with an update of economic assumptions in 2014. The experience study for PEPFF was for the period July 1, 2004, through June 30, 2009. Experience studies have not been prepared for PERA's other plans, but assumptions are reviewed annually.

There were no changes in actuarial assumptions in 2015.

The long-term expected rate of return on pension plan investments is 7.9 percent. The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness of the long-term expected rate of return on a regular basis using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
Domestic stocks	45.00 %	5.50 %
International stocks	15.00	6.00
Bonds	18.00	1.45
Alternative assets	20.00	6.40
Cash	<u>2.00</u>	0.50
Total	<u><u>100.00 %</u></u>	

F. Discount rate

The discount rate used to measure the total pension liability was 7.9 percent. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, each of the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

CITY OF INVER GROVE HEIGHTS, MINNESOTA
 NOTES TO THE FINANCIAL STATEMENTS
 DECEMBER 31, 2015

Note 4: DEFINED BENEFIT PENSION PLANS - STATEWIDE - CONTINUED

G. Pension liability sensitivity

The following presents the City's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

	City Proportionate Share of Net Pension Liability		
	1 Percent Decrease (6.90%)	Current (7.90%)	1 Percent Increase (8.90%)
	GERF	\$ 8,825,109	\$ 5,612,669
PEPFF	7,330,101	3,760,935	812,181

H. Pension plan fiduciary net position

Detailed information about each defined benefit pension plan's fiduciary net position is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the Internet at www.mnpera.org; by writing to PERA at 60 Empire Drive #200, St. Paul, Minnesota, 55103-2088; or by calling (651) 296-7460 or (800) 652-9026.

Note 5: DEFINED CONTRIBUTION PLAN

There are four City Council members that are covered by the Public Employees Defined Contribution Plan (PEDCP), a multiple-employer deferred compensation plan administered by PERA. The PEDCP is a tax qualified plan under Section 401(a) of the Internal Revenue Code and all contributions by or on behalf of employees are tax deferred until time of withdrawal.

Plan benefits depend solely on amounts contributed to the plan plus investment earnings, less administrative expenses. Minnesota statutes, chapter 353D.03, specify the employee and employer contribution rates for those qualified personnel who elect to participate. An eligible elected official who decides to participate contributes 5 percent of salary which is matched by the elected official's employer. Employer and employee contributions are combined and used to purchase shares in one or more of the seven accounts of the Minnesota Supplemental Investment fund. For administering the plan, PERA receives 2 percent of employer contributions and twenty-five hundredths of one percent of the assets in each member's account annually.

The City's contributions to the PEDCP for the years ended December 31, 2015, 2014 and 2013 were \$1,768, \$1,500 and \$1,500, respectively. The City's contributions were equal to the contractually required contributions for each year as set by Minnesota statute.

Contribution Amount		Percentage of Covered Payroll		Required Rate
Employee	Employer	Employee	Employer	
\$ 1,768	\$ 1,768	5.00%	5.00%	5.00%

CITY OF INVER GROVE HEIGHTS, MINNESOTA
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015

Note 6: DEFINED BENEFIT PENSION PLANS - FIRE RELIEF ASSOCIATION

A. Plan description

All members of the Inver Grove Heights Fire Department (the Department) are covered by a defined benefit plan administered by the Inver Grove Heights Firefighters Relief Association (the Association). As of December 31, 2014, the plan covered 65 active firefighters and 9 vested terminated fire fighters whose pension benefits are deferred. The plan is a single employer retirement plan and is established and administered in accordance with Minnesota statute, chapter 69.

The Association maintains a separate Special fund to accumulate assets to fund the retirement benefits earned by the Department's membership. Funding for the Association is derived from an insurance premium tax in accordance with the Volunteer Firefighter's Relief Association Financing Guidelines Act of 1971 (chapter 261 as amended by chapter 509 of Minnesota statutes 1980). Funds are also derived from investment income.

B. Benefits provided

A firefighter who completes at least 20 years as an active member of the Department is entitled, after age 50, to a full service pension upon retirement.

The bylaws of the Association also provide for an early vested service pension for a retiring member who has completed fewer than 20 years of service. The reduced pension, available to members with 10 years of service, shall be equal to 60 percent of the pension as prescribed by the bylaws. This percentage increases 4 percent per year so that at 20 years of service, the full amount prescribed is paid. Members who retire with less than 20 years of service and have reached the age of 50 years and have completed at least 10 years of active membership are entitled to a reduced service pension not to exceed the amount calculated by multiplying the member's service pension for the completed years of service times the applicable non-forfeitable percentage of pension.

C. Contributions

Minnesota statutes, chapters 424 and 424A authorize pension benefits for volunteer fire relief associations. The plan is funded by fire state aid, investment earnings and, if necessary, employer contributions as specified in Minnesota statutes and voluntary City contributions (if applicable). The State of Minnesota contributed \$180,645 in fire state aid to the plan on behalf of the Department for the year ended December 31, 2014, which was recorded as a revenue. Required employer contributions are calculated annually based on statutory provisions. In addition, the City made voluntary contributions of \$25,000 to the plan.

D. Pension costs

At December 31, 2015, the City reported a net pension asset of \$1,991,426 for the plan. The net pension asset was measured as of December 31, 2014. The total pension liability used to calculate the net pension asset in accordance with GASB 68 was determined by Hildi, Inc. applying an actuarial formula to specific census data certified by the Department as of December 31, 2014.

For the year ended December 31, 2015, the City recognized pension expense of \$54,286.

CITY OF INVER GROVE HEIGHTS, MINNESOTA
 NOTES TO THE FINANCIAL STATEMENTS
 DECEMBER 31, 2015

Note 6: DEFINED BENEFIT PENSION PLANS - FIRE RELIEF ASSOCIATION - CONTINUED

At December 31, 2015, the City reported deferred outflows of resources and its contributions subsequent to the measurement date related to pension from the following sources:

	Deferred Outflows of Resources
Net difference between projected and actual earnings on plan investments	\$ 29,259
Contributions to plan subsequent to the measurement date	215,612
Total	\$ 244,871

Deferred outflows of resources totaling \$215,612 related to pensions resulting from the City's contributions to the plan subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2016. Other amounts reported as deferred outflows of resources related to the plan will be recognized in pension expense as follows:

2016	\$ 7,315
2017	7,315
2018	7,315
2019	7,314

E. Actuarial assumptions

The total pension asset at December 31, 2014 was determined using the entry age normal actuarial cost method and the following actuarial assumptions:

Retirement eligibility at 100 percent at age 50	
Salary increases	2.50% per year
Cost of living increases	0.00% per year
Investment rate of return	6.00%
20 year municipal bond yield	3.50%

The 6 percent long-term expected rate of return on pension plan investments was based on the plan's target investment allocation along with long-term expectations by asset class. When there is sufficient historical evidence of market outperformance, historical average returns may be considered.

CITY OF INVER GROVE HEIGHTS, MINNESOTA
 NOTES TO THE FINANCIAL STATEMENTS
 DECEMBER 31, 2015

Note 6: DEFINED BENEFIT PENSION PLANS - FIRE RELIEF ASSOCIATION - CONTINUED

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
Cash	13.00 %	2.00 %
Fixed income	22.00	4.00
Equities	63.00	7.50
Other	<u>2.00</u>	6.00
Total	<u><u>100.00 %</u></u>	

F. Discount rate

The discount rate used to measure the total pension liability was 6.0 percent. Assets were projected using expected benefit payments and expected asset returns. Expected benefit payments by year were discounted using the expected asset return assumption for years in which the assets were sufficient to pay all benefit payments. Any remaining benefit payments after the trust fund is exhausted are discounted at the municipal bond rate. The equivalent single rate is the discount rate.

G. Pension asset sensitivity

The following presents the City's net pension asset for the plan, calculated using the discount rate disclosed in the preceding paragraph, as well as what the City's net pension asset would be if it were calculated using a discount rate 1 percent lower or 1 percent higher than the current discount rate:

	<u>City Proportionate Share of NPL</u>		
	<u>1 Percent Decrease (5.00%)</u>	<u>Current (6.00%)</u>	<u>1 Percent Increase (7.00%)</u>
Defined benefit plan	\$ 1,886,303	\$ 1,991,426	\$ 2,090,946

H. Pension plan fiduciary net position

The Association issues a publicly available financial report. The report may be obtained by writing to the Inver Grove Heights Firefighters Relief Association, 8150 Barbara Ave, Inver Grove Heights, MN 55077.

CITY OF INVER GROVE HEIGHTS, MINNESOTA
 NOTES TO THE FINANCIAL STATEMENTS
 DECEMBER 31, 2015

Note 7: POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

A. Plan description

The City provides a single-employer defined benefit health care plan to eligible retirees and their spouses. The plan offers medical coverage and is administered by HealthPartners, Inc. It is the City's policy for Council to periodically review its medical coverage, and to obtain requests for proposals in order to provide the most favorable benefits and premiums for City employees and retirees. The City does not issue a publicly available report.

B. Funding policy

Retirees receiving benefits contribute 100 percent of their premium costs. Retirees and their spouses contribute to the health care plan at the same rate as City employees. This results in the retirees receiving an implicit rate subsidy. Contribution requirements are established by the City, based on the contract terms with HealthPartners, Inc. The required contributions are based on projected pay-as-you-go financing requirements. For fiscal year 2015, the City contributed \$18,761 to the plan. As of January 1, 2015, there were four retirees receiving health benefits from the City's health plan.

C. Annual other postemployment benefit (OPEB) cost and net OPEB obligation

The City's annual OPEB cost (expense) is calculated based on the annual required contribution (ARC) of the City, an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years using a 4.0 percent discount rate. The following table shows the components of the City's annual OPEB cost for the year, the amount actually contributed to the plan and changes in the City's net OPEB obligation to the plan.

Annual required contribution	\$ 78,226
Interest on net OPEB obligation	4,094
Adjustment to annual required contribution	<u>(5,917)</u>
 Annual OPEB cost (expense)	 76,403
Contributions made	<u>(18,761)</u>
 Increase in net OPEB obligation	 57,642
Net OPEB obligation - January 1, 2015	<u>102,346</u>
 Net OPEB obligation - December 31, 2015	 <u><u>\$ 159,988</u></u>

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for the preceding three years as follows:

Year Ending	Three Year Trend Information			
	Annual OPEB Cost	Employer Contribution	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
12/31/15	\$ 76,403	\$ 18,761	24.6 %	\$ 159,988
12/31/14	74,743	45,224	60.5	102,346
12/31/13	75,313	39,924	53.0	72,827

CITY OF INVER GROVE HEIGHTS, MINNESOTA
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015

Note 7: POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS - CONTINUED

D. Funded status and funding progress

As of January 1, 2015, the most recent actuarial valuation date, the actuarial accrued liability for benefits was \$610,231, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$8,318,280, and the ratio of the unfunded actuarial accrued liability (UAAL) to the covered payroll was 7.3 percent.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Amounts determined regarding the funded status of the plan and the ARC of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress for the Postemployment Benefit Plan, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

E. Actuarial methods and assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities, consistent with the long-term perspective of the calculations.

At the January 1, 2015 actuarial valuation date, the projected unit credit actuarial cost method was used. The actuarial assumptions included a 4.0 percent discount rate, which is based on the investment yield expected to finance benefits depending on whether the plan is funded in a separate trust (about 8.0 percent to 9.0 percent, long-term, similar to a pension plan) or unfunded (3.0 percent, shorter term, based on City's general assets). Both rates included a 2.5 percent inflation assumption. The post retirement benefit increase is the same as the insurance rate increase as the liability is only implicit rate. The City currently does not plan to prefund for this benefit. At the actuarial valuation date, the annual health care cost trend rate was calculated to be 7.25 percent initially, reduced incrementally to an ultimate rate of 5.0 percent after nine years. The UAAL is being amortized on a level percentage of projected payroll on a closed basis. The remaining amortization period was 30 years.

Note 8: OPERATING LEASES

The City leases the Aquatic and Fitness Center to Independent School District 199 under an operating lease. The lease commenced July 1, 2001 and terminates on June 30, 2021. The annual rent is payable in two installments due July 15 and January 15. The 2015 revenue was \$248,500.

The net book value of the assets noted above being leased are as follows:

Asset	
Buildings	\$ 17,689,059
Less: Accumulated depreciation	<u>(13,591,460)</u>
Total	<u>\$ 4,097,599</u>

CITY OF INVER GROVE HEIGHTS, MINNESOTA
 NOTES TO THE FINANCIAL STATEMENTS
 DECEMBER 31, 2015

Note 8: OPERATING LEASES - CONTINUED

Future minimum lease payments are as follows:

<u>Year Ending December 31,</u>	<u>Amount</u>
2016	\$ 249,500
2017	307,500
2018	350,000
2019	350,000
2020	350,000
2021	<u>175,000</u>
Total	<u>\$ 1,782,000</u>

Note 9: OTHER INFORMATION

A. Risk management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Workers compensation coverage is provided through a pooled self-insurance program through the League of Minnesota Cities Insurance Trust (LMCIT). The City pays an annual premium to the LMCIT. The City is subject to supplemental assessments if deemed necessary by the LMCIT. The LMCIT reinsures through Workers Compensation Reinsurance Association (WCRA) as required by law. For workers compensation, the City is not subject to a deductible.

Property and casualty insurance is provided through a pooled self-insurance program through the LMCIT. The City pays an annual premium to the LMCIT. The City is subject to supplemental assessments if deemed necessary by the LMCIT. The LMCIT reinsures through commercial companies for claims in excess of various amounts. The City retains risk for the deductible portion of the insurance policies and for any exclusions from the insurance policies. These amounts are considered immaterial to the financial statements.

The City continues to carry commercial insurance for all other risks of loss, including disability and employee health insurance.

There were no significant reductions in insurance from the previous year or settlements in excess of insurance coverage for any of the past three fiscal years.

The risk management activities of the City are accounted for by the Risk Management fund, an internal service fund, which charges its costs to user departments. The fund is designed to build up a reserve which will provide the City the opportunity to assume a greater share of its insurance risks and thereby reducing the cost to purchase insurance.

CITY OF INVER GROVE HEIGHTS, MINNESOTA
 NOTES TO THE FINANCIAL STATEMENTS
 DECEMBER 31, 2015

Note 9: OTHER INFORMATION - CONTINUED

B. Contingencies

Tax increment financing districts

The City’s tax increment districts are subject to review by the State of Minnesota Office of the State Auditor (OSA). Any disallowed claims or misuse of tax increments could become a liability of the applicable fund. Management has indicated that they are not aware of any instances of noncompliance which would have a material effect on the financial statements.

The City has entered into “pay as you go” Tax Increment Financing notes within its TIF districts. These notes are payable only to the extent of the increment received. As a result they are a commitment within the district but they have not met the criteria to be reported as a liability on the statement of net position.

C. Conduit debt obligations

From time to time, the City has issued industrial revenue bonds to provide financial assistance to private sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payment received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. Neither the City, the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

As of December 31, 2015, there were two series of Housing Revenue Bonds outstanding as follows:

Series	Amount Issued	Balance Outstanding 12/31/2015
2005 Senior Housing Revenue Refunding Bonds	\$30,290,000	\$24,935,000
2006 Nursing Home Revenue Refunding Bonds	23,265,000	20,160,000
Total	\$53,555,000	\$45,095,000

Note 10: CHANGE IN ACCOUNTING STANDARDS

The City implemented several new accounting pronouncements issued by the Governmental Accounting Standards Board (GASB), including Statement No. 68, Accounting and Financial Reporting for Pensions - an Amendment of GASB Statement No. 27 and Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date - an Amendment of GASB Statement No. 68, for the year ended December 31, 2015. These standards required a retroactive implementation which resulted in the restatement of beginning balances in the December 31, 2015 financial statements. Changes related to these standards are reflected in the financial statements and schedules and related disclosures are included in Note 4 and Note 6.

CITY OF INVER GROVE HEIGHTS, MINNESOTA
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015

Note 10: CHANGE IN ACCOUNTING STANDARDS - CONTINUED

As a result of the restatement of beginning balances, the following schedule reconciles the previously reported December 31, 2014 balances to the December 31, 2015 financial statements:

Fund	Net Position December 31, 2014 as Previously Reported	Prior Period Restatement (1)	Net Position January 1, 2015 as Restated
Governmental activities	<u>\$ 132,330,093</u>	<u>\$ (7,528,572)</u>	<u>\$ 124,801,521</u>

NONMAJOR SPECIAL REVENUE FUNDS

Special Revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

Convention and Visitors Bureau was created by a resolution of the City Council to account for the local lodging tax revenues collected per Ordinance No. 1015 which was adopted by the City Council on October 8, 2001, under the authority of Minnesota statutes, section 469.190.

Recreation accounts for recreation activities of the City.

Economic Development Authority accounts for the activities of the Economic Development Authority.

NONMAJOR DEBT SERVICE FUNDS

Debt Service funds are used to account for the accumulation of resources for, and payment of, principal and interest and related costs on general long-term debt.

MSABC Bonds accounts for the City's share of these bonds which were used to finance construction of the armory which are repaid primarily from general property taxes.

Storm Water Bonds accounts for storm water projects which are repaid primarily from watershed management district general property taxes and user fees.

Tax Increment Financing Bonds accounts for resources accumulated and payments for principal and interest on long term tax increment financing debt.

NONMAJOR CAPITAL PROJECTS FUNDS

Capital Project funds account for financial resources to be used for acquisition or construction of major capital facilities (other than those financed by Proprietary funds).

Capital Facilities accounts for financial resources assigned for future City capital facilities.

Equipment Acquisition accounts for major equipment purchases.

Parks Acquisition and Development accounts for park dedication fees, related revenues and park and/or trail improvements.

State Aid Construction accounts for the use of municipal state aid allotments to finance projects not assessed such as street lights and sidewalks.

Capital Improvement Revolving accounts for preliminary construction costs incurred for projects not ordered.

Storm Water Management accounts for storm water projects.

Tree Preservation accounts for financial resources assigned for tree preservation.

Parks Capital Replacement accounts for financial resources assigned for maintenance and replacement of parks facilities.

Americans with Disabilities Act accounts for financial resources assigned for building repairs and maintenance.

Community Projects accounts for financial resources assigned for future community projects.

Permanent Improvement Revolving accounts for improvement revenues and expenditures from replacement funds set aside for capital improvements.

Tax Increment Financing accounts for the use of tax increment in the City's tax increment districts.

INTERNAL SERVICE FUNDS

Internal Service funds are used to account for the financing of goods or services provided by one department to other departments of the City, on a cost reimbursement basis. Revenues are recognized in the accounting period in which they are earned and become objectively measurable; expenses are recognized in the period incurred, if objectively measurable.

Compensated Absences was established to account for payment of unused vacation, sick, personal leave, and severance and allocation of such costs to respective departments.

Risk Management was established to account for all City insurance programs related to the ongoing operations with the exception of employee benefit coverage.

Central Equipment was established to account for the cost of operating a maintenance facility and providing vehicles and equipment used by City departments and funds. The exception is the Golf Course fund which maintains its own equipment and vehicles.

Central Stores was established to account for the centralized purchase of consumable office supplies used by departments of the City.

City Facilities was established to account for the cost of maintaining City Hall. User departments are charged a rental fee based upon square footage.

Technology was established to account for the maintenance of all computer systems of the City.

DECEMBER 31, 2015

THIS PAGE IS LEFT BLANK
INTENTIONALLY

STATISTICAL SECTION (UNAUDITED)

This part of the City's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Contents	<u>Pages</u>
Financial Trends	139-149
These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.	
Revenue Capacity	151-157
These schedules contain information to help the reader assess the City's most significant local revenue source, property taxes.	
Debt Capacity	158-164
These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	
Demographic and Economic Information	165-167
These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.	
Operating Information	168-173
These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the annual financial reports for the relevant year.

(1) Overlapping rates are those of local and county governments that apply to property owners within the City. Not all overlapping rates apply to all City property owners (e.g. the rates for School District No. 199 apply only to the proportion of the government's property owners whose property is located within the geographic boundaries of the school district).

(2) Special districts include: Metropolitan Council, Mosquito Control, and Metropolitan Transit.

Source: Dakota County Treasurer/Auditor.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the city. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Inver Grove Heights, Minnesota. This process recognizes that, when considering the government's ability of issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

(1) The percentage of overlapping debt applicable is estimated using taxable market property values. Applicable percentages were estimated by determining the portion of the county's taxable market value that is within the City's boundaries and dividing it by the County's total taxable market value.

Legal debt margin	<u>\$ 48,608,511</u>	<u>\$ 50,812,209</u>	<u>\$ 89,614,482</u>	<u>\$ 82,251,666</u>
Total net debt applicable to the limit as a percent of debt limit	22.19%	25.80%	15.95%	23.64%

Note: Under state law, the City's outstanding general obligation debt should not exceed 3 percent of the market value of taxable property. Net debt is payable solely from ad valorem taxes and, therefore, excludes debt financed partially or entirely by special assessments, enterprise fund revenues, or tax increments. Prior to 2008, state law provided that general obligation debt should not exceed 2 percent. By law, the general obligation debt subject to the limitation may be offset by amounts set aside for the extinguishment of those obligations.

(1) The G.O. revenue bonds were reclassified from governmental activities to business-type activities in 2013. Activity prior to 2012 has not been restated for this change.
